

*MARINE AND POOL CLEANER*

ABSTRACT

[0031] A marine and pool cleaner for cleaning a surface is provided including a hand held cleaning head assembly for engaging the surface and directing water onto the surface. A drive assembly provides a driving force to the cleaning head assembly, said driving force is transmitted to the cleaning head assembly by a transmission assembly. Water is provided to the hand held cleaning head assembly by a water attachment assembly which couples a water source to the hand held cleaning head assembly.
